

# FRED AND THE TIME MACHINE

*Low budget WEB SERIE*

Erasmus+

**IES Puerta Bonita**  
Centro para la formación audiovisual y gráfica

# ABOUT THE PROJECT

- This serie web is part of the Erasmus + YIDOCM multiplatform project.
- The plot treat about a fictional future where the climatic change can not be solved.
- Is a little sitcom with action and science fiction but with a message about the necessity of change our present.

- The production crew is formed by students of the IES Puerta Bonita.
- The artistic crew is formed by non-profit professional Spanish actors.
- This part of the project is a way to look the climate change problem from another point of view, mixing the comedy with the drama.

# THE FUTURE WORLD

- The characters live in a «post-apocalyptic» future because of the climatic change.
- Have a crew of bands, is dangerous, the politic is like a anarchy.
- Have a super development technology .
- Have a dirty air, all is gray.

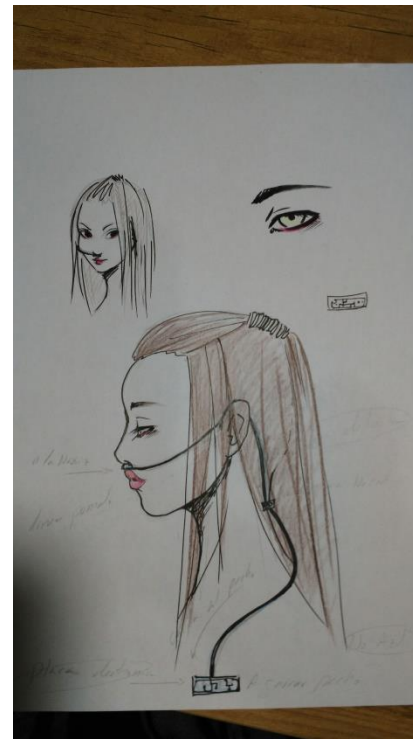

# CHARACTERS

**FRED:** He is a freelance scientist that works with recycling stuff that he finds in the trash. He created the MT (the time machine). His mission is to finish with the climatic change in the past to rescue the planet because in this way he can save Didi too.

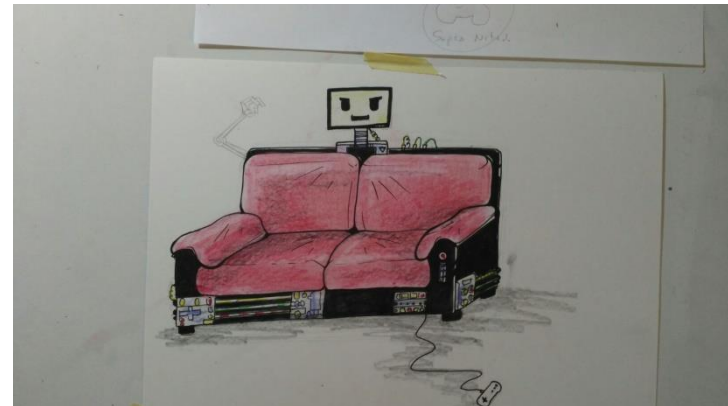

# CHARACTERS

- **DIDI:** She is the flat's partner of Fred. She has an incurable respiratory disease, works for a famous fracking company and does not believe in the climatic change.

# CHARACTERS

- **MT:** It is the Time Machine. It has a mischievous personality and works when it wants. MT is the humoristic character in the serie.

# CHARACTERS

- **LINCE:** He is a wandering gentleman expert in weapons and obsessed with the urban legend about «Chipichorra's Rat» because he knows that she really exists.

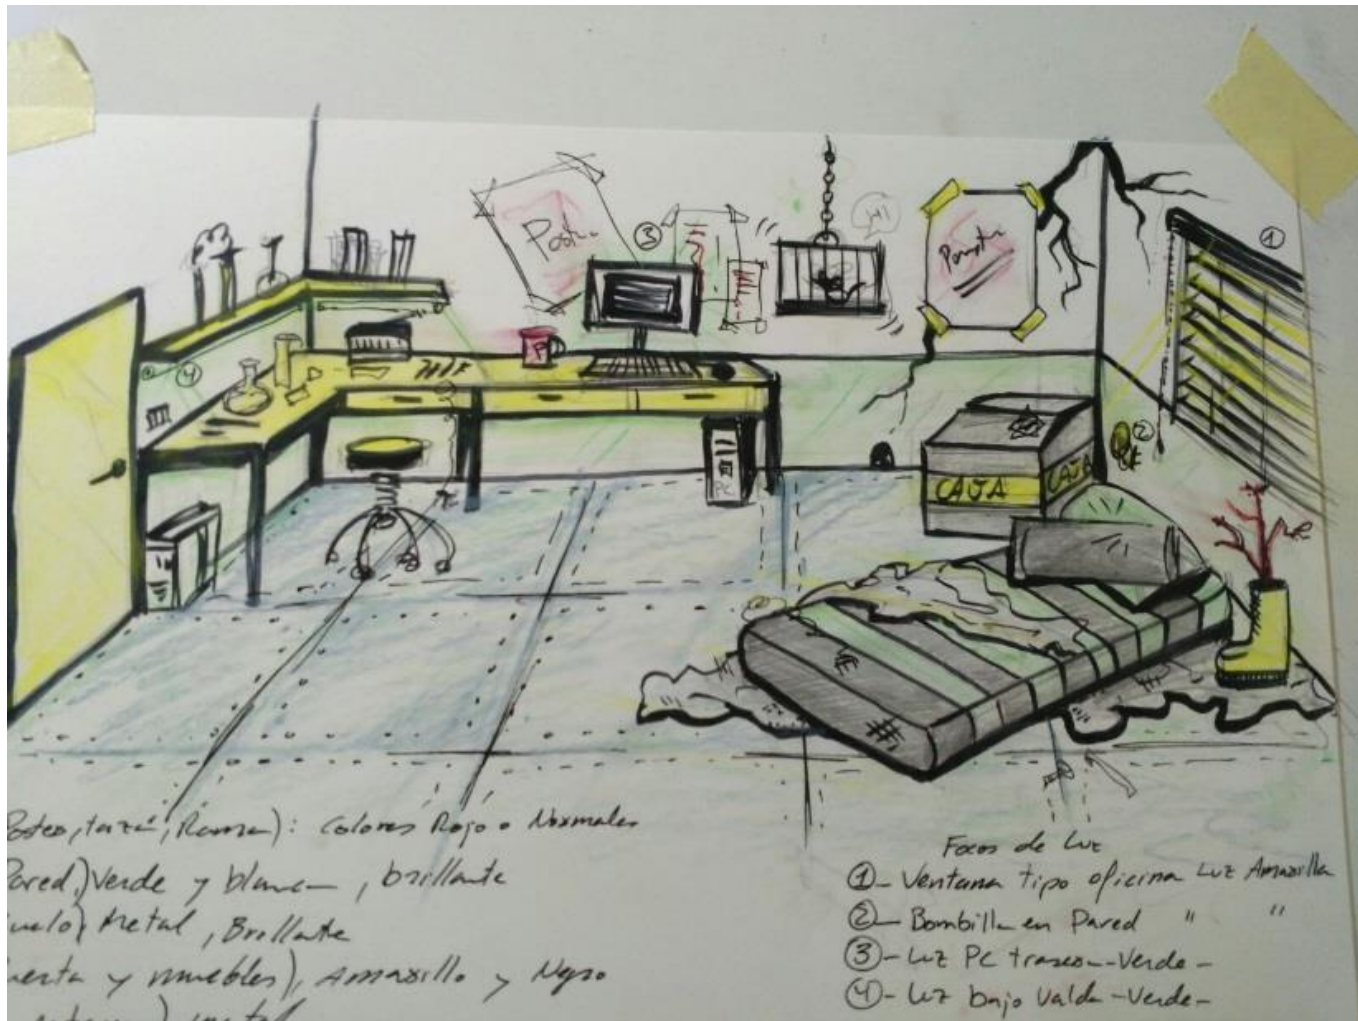

# CHARACTERS

- **SR. ROPERO:**

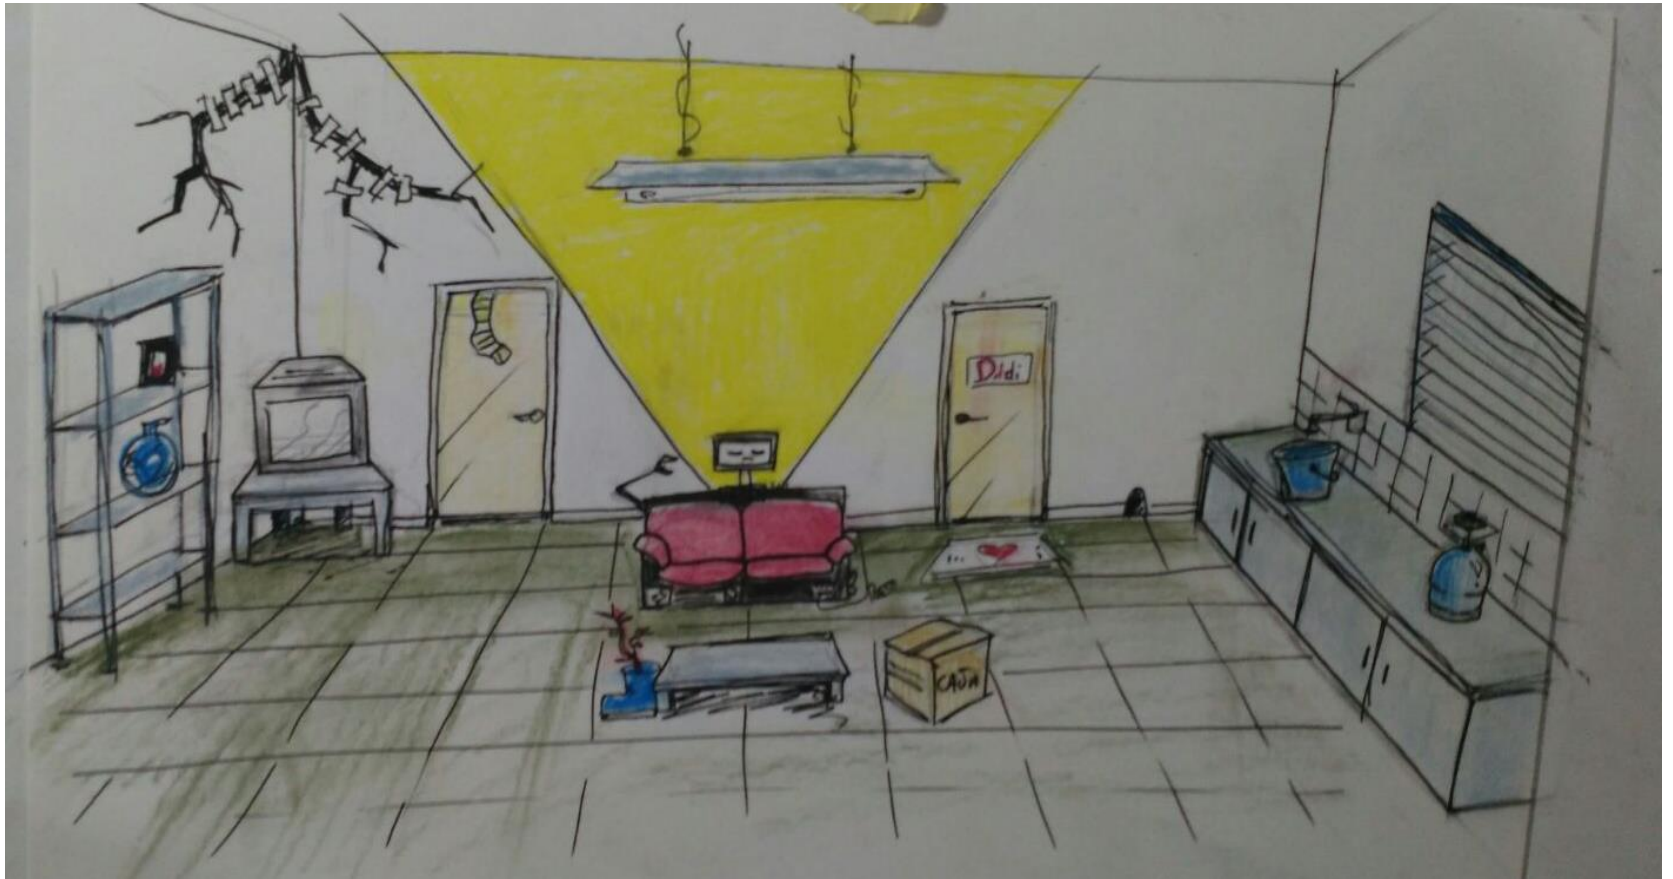

He is the landlord of Fred and Didi. He was saved in the past by Fred
